PROFESSIONAL SUMMARY

Young and technology-driven Science Educator specializing in Physics and Chemistry for students from 8th to 12th standard (Science stream). I combine strong conceptual teaching with AI-powered content creation, enabling faster preparation, deeper understanding, and structured revision systems.

My teaching approach integrates traditional fundamentals with modern tools such as AI-generated tests, presentations, structured revision notes, and 3D concept visualization to enhance student comprehension and retention.

CORE SUBJECT EXPERTISE

- Physics (8th – 12th Std)
 - Chemistry (8th – 12th Std)
 - Science Foundation (Middle School to Senior Secondary)
 - Basic Competitive Exam Foundation (NEET/JEE level fundamentals)
-

UNIQUE TEACHING ADVANTAGE (USP)

AI-Integrated Teaching Methodology

- Generate structured tests, practice papers, and worksheets within minutes
- Prepare high-quality presentations for complex Physics and Chemistry topics
- Create instant revision notes and summary sheets for board preparation
- Design chapter-wise test series with analytical feedback
- Provide quick doubt-solving support with structured explanations

3D & Real-Life Concept Visualization

- Explain abstract Physics and Chemistry concepts using 3D models and visual demonstrations
- Connect scientific theories to real-world applications
- Use activity-based learning to improve conceptual clarity
- Simplify numericals through step-by-step logical breakdown

TEACHING APPROACH

- Concept-first methodology (strong fundamentals before memorization)
 - Structured problem-solving training
 - Regular performance tracking and improvement strategy
 - Individual attention and doubt-clearing sessions
 - Focus on exam strategy and answer presentation skills
-

EXPERIENCE

Science Educator (Physics & Chemistry) 2022 - Current
Private Tuition / Local Coaching (Shital Tathod's Classes Pimple Gurav)

- Teaching students from 8th to 12th standard
- Preparing students for board examinations
- Conducting AI-assisted test series and revision programs
- Creating customized study materials based on student performance
- Helping students transition from rote learning to conceptual understanding

Manager-cum-Teacher (Shree Dronacharya Classes, old sangvi, pune) 2020 – 2023

- Teaching students from 8th to 10th standard
- Preparing students for board examinations
- Focused on the weaker students to strengthen their core principals
- Managing the institutes schedule
- Managing the events held in the institute

Apart from this working in the tech industry since 2022 worked on several projects and delivered high value products to several businesses in India and outside countries.

TECHNICAL & EDUCATIONAL SKILLS

- AI-assisted content creation for academic use
 - Digital presentation design
 - Structured lesson planning
 - Analytical performance evaluation
 - Modern classroom engagement techniques
-

ACADEMIC QUALIFICATION

BE in AI & DS (Dropped Out) 2024

PES Modern College of Engineering, Pune, Maharashtra

STRENGTHS

- Young, energetic, and relatable teaching style
 - Technology-integrated education approach
 - Fast preparation and structured academic planning
 - Strong conceptual clarity in Physics and Chemistry
 - Continuous self-improvement and research-driven teaching
-
